

‘We strive to improve heart and mind’

Cor et Mentem Colere Nitimur

At Chilton Foliat Primary School we honour our educational heritage, supported by a strong Christian ethos. We strive to provide a diverse education that inspires children to develop a thirst for knowledge. This is delivered in a safe, supportive and nurturing environment promoting self-discipline, motivation and excellence in learning. We encourage strong partnerships and positive relationships amongst pupils, parents, carers and the wider community.

Equality Information

Introduction

“Education plays a key role in determining how you spend your adult life – a higher level of education means higher earning, better health and longer life. By the same token, the long-term social and financial costs of educational failure are high. Those without the skills to participate socially and economically generate higher costs for health, income support, child welfare and social security systems.”

Chilton Foliat Primary School recognises the importance of education in creating life opportunities and recognises that the influence of school on a child’s life is made more significant if they currently have, or have had in the past, a disadvantaged home life.

This document looks at the most recent attainment data and highlights the groups that are vulnerable to underachievement in Wiltshire schools. Chilton Foliat Primary School is using this data to support its work to maximise the attainment of every pupil and, in particular, pupils at risk of educational underachievement

ATTAINMENT: NATIONAL AND WILTSHIRE DATA

For most of the groups attainment is broadly in line with national results. In this document results are being highlighted where there is a county attainment gap compared with national results or where there is national and local concern about poor attainment for particular groups.

Pupils Eligible for Free School Meals

There is concern nationally and in Wiltshire about the underachievement of boys and girls who are eligible for free school meals as well as the poor attainment of children who are looked-after by the Local Authority. The attainment gaps for pupils eligible for FSM (compared with average attainment for All Pupils) are substantial although the gaps are beginning to narrow. In 2015 the gap in attainment of Reading, Writing and Maths at KS2 Level 4+ in Wiltshire was 20 per cent and nationally was 15 per cent.

In 2016-17 the allocation for pupils eligible and registered for FSM is set at £1320 for each primary-aged pupil. This funding is allocated to the school. In the case of Looked After Children (LAC), children adopted from care, and children with guardians, the Pupil Premium Plus is currently £1,900 per pupil. For LAC this funding is allocated directly to the LA's Virtual Head Teacher. In the case of children adopted from care, and children with guardians, the PPP is allocated to the school. Information about how Chilton Foliat Primary School spends its pupil premium can be found in the Pupil Premium section of the school website.

Pupils whose ethnic background is recorded as Gypsy/Traveller

Wiltshire and national ethnic monitoring data shows that Gypsy Traveller pupils, as a group, have the lowest educational outcomes with attainment gaps of 50 per cent. This group is also of concern as they are likely to choose home education rather than opting to attend secondary school and are more likely to receive fixed term exclusions from school. Small numbers means Chilton Foliat Primary School is not able to detail the steps it takes to raise attainment and support transfer to secondary school but recognises that Gypsy/Traveller pupils are particularly vulnerable within the education system. Individual support and transition plans will be prepared on a needs basis to assist these pupils.

Black Caribbean Pupils, Pupils ethnicity recorded as Any Other Black Background

The numbers of Wiltshire pupils in many of the ethnic groups (with the exception of the White British category) are too small for the annual data to be reliable. However, year on year, the data on the attainment of Black Caribbean pupils and pupils in the Any Other Black Background groups show a pattern of significant underachievement when compared with the attainment for All Pupils. Chilton Foliat Primary School is aware that pupils in these groups continue to be vulnerable to underachievement. This mirrors the national picture as the 'Any Other Black Background broad ethnic category (which includes Black Caribbean, Black African, Any Other Black Background sub-categories), has had the lowest attainment of the five broad ethnic categories.

Mixed White/Asian Pupils and Asian Indian Pupils

The ethnic categories where the attainment of Wiltshire pupils is significantly above that of All Pupils are: Mixed White/Asian pupils and Asian Indian pupils. This differs from the national picture across England it is Chinese pupils who have the highest attainment.

Boys/Girls

Nationally, attainment in reading, writing and mathematics combined has slightly improved for both boys and girls. However, girls continue to outperform boys, The gender gap at Level 4+ has remained at 6 percentage points. In Wiltshire the attainment gap between boys and girls has also remained at 6 percentage points. The largest gap between the girls and boys (in both the national and Wiltshire results) continues to be in the Writing Teacher Assessment where there is a gap of 8 percentage points.

The most significant gap in attainment continues to be between pupils (both girls and boys) eligible for free school meals and pupils not eligible for free school meals. Compared to the results for pupils not claiming free school meals, the gap at KS2 level 4+ for Wiltshire boys eligible for free school meals the gap is 16 percentage points for girls and 19 percentage points for boys).

This school recognises that groups of pupils may be vulnerable to underachievement for a number of complex reasons, and is able to put the following measures in place to raise attainment:

- The school ensures that all teaching staff are aware of the groups that have experienced historic underachievement
- The school ensures that all teachers have high expectations of all pupils, and individual pupils' progress and attainment is tracked, with a special focus on pupils who may be vulnerable to underachievement.
- All teachers are aware that different factors can combine to exacerbate educational disadvantage, e.g. gender, being summer born, being eligible for free school meals, having special educational needs, being a young carer etc.
- The school works closely with parents/carers to address any underachievement at an early stage, and is able to implement a wide variety of interventions.
- From September 2016 we have introduced a Growth Mindset culture throughout the school to encourage the pupils to become more resilient and take more ownership of their own learning.

English as an Additional Language (EAL)

Improved performance in Writing helped Wiltshire EAL learners narrow the gap with English first language pupils to 2 percentage points in reading, writing and mathematics. This matches the national figure.

The local authority's Ethnic Minority Achievement Service (EMAS) continues to work with local schools to secure the achievement of EAL learners, and other learners. This includes work with individual children to assess, identify needs and recommend and support provision. It includes support from Bilingual Assistants both in the classroom and to help establish productive home-school partnerships.

In addition, the service works at a more strategic level. Recent work has included:

- providing training to specific groups, including newly qualified teachers, early years practitioners and other school staff to equip them with the skills and knowledge to meet learner's needs.
- hosting "bilingual conferences" for multilingual children to come together, learn how to develop their skills and gain in self-confidence and respect.

As always, EMAS believes that Wiltshire schools will also benefit more widely from strategies used with learners of EAL, as it is recognised that a focus on language and communication skills can benefit a broad range of students. This belief has recently been bolstered by the findings of Professor Steve Strand in English as an Additional Language (EAL) and educational achievement in England. He showed an increase in the number of EAL learners in a school is associated with improved attainment by English first language children.

We currently have no pupils with English as an Additional Language.

Disability/SEN (Special Educational Needs)

Every school is required to identify and address the SEN needs of the pupils that they support. Information about the support provided by Chilton Foliat Primary School for pupils with special education needs and for disabled pupils is detailed in the SEN section of the school website and in the SEN policy.

Disabled Pupils and SEN Pupils – Attainment Data

45 per cent of Wiltshire pupils who receive SEN support (the old SEN categories of School Action and School Action Plus combined) achieved level 4+ in reading, writing & mathematics. For Wiltshire pupils with a statement of SEN or an EHC Plan, 15 per cent of pupils achieved level 4 or above in reading, writing & mathematics.

There is an increasing understanding of the negative impact of social, emotional, and mental health difficulties (SEMH) on the educational attainment of pupils. The incorporation of mental health into the Equality Act 2010 has helped to highlight this important issue.

Academic progress is important, but pupils also need to move on from the stage of their education feeling happy and self-confident. Chilton Foliat Primary School is committed to providing a nurturing environment to help

develop the resilience of our pupils to cope with the ups and downs and stresses of everyday life. The growth mindset culture that our school has adopted, alongside work with our school ELSA (Emotional Literacy Support Assistant) will promote positive mental wellbeing in all our pupils. Further to this, we have an annual visit from the Life Education Bus where children can explore their bodies including feelings and emotions. We also offer yoga as one of our extra-curricular activities. Upper KS2 pupils are also practising mindfulness. [Chilton Foliat Primary School has decided that one of our new key strategic Equality Objectives will address pupil mental health and wellbeing as part of our commitment to preventing mental health difficulties that may start in childhood but have a greater impact in adult life.](#)

Faith and Belief

Data is not collected for monitoring purposes on Religion and Belief, so there is no information available to compare the attainment of pupils who have/or do not have a religion or a belief.

Chilton Foliat Primary School recognises how important faith and belief can be as part of a young person's developing identity, whether this related to a particular faith or belief, or whether this related to wider belief systems, and moral ethics.

Chilton Foliat Primary School is committed to supporting all our young people as they develop a personal relationship with their particular set of values and beliefs, and to supporting, in the context of the Human Rights agenda, the role this plays in the moral and ethical choices they make in life.

This school takes incidents of prejudice-related bullying seriously and is committed to working closely with parents/carers to create a school environment which is nurturing, friendly and supportive for all our children. Our school has established a procedure for recording all incidents of prejudice-based bullying and this includes bullying relating to religion and belief.

Wiltshire LA Anti-bullying Guidance specifically states that religious bullying can be identified as '*a negative or unfriendly focusing on religious difference or how somebody expresses their faith*'. This school is vigilant in maintaining an awareness of, and appropriate responses to, this possibility. Chilton Foliat Primary School is aware that negative faith-based media attention can have an impact on all children, and recognises the importance of ensuring that pupils are provided with accurate and appropriate information.

Chilton Foliat Primary School ensures all pupils gain knowledge of and respect for the different faiths in Britain as part of our role to prepare pupils for modern life in a diverse Britain. As part of a whole school activity, pupils have the opportunity to celebrate a number of different religious festivals and learn from religious representatives from various communities.

Chilton Foliat Primary School recognises that discrimination on the grounds of religion or belief is a global concern, and our school actively promotes tolerance and respect.

Another **key strategic objective** and current focus for Chilton Foliat Primary School is to ensure that our pupils understand and appreciate the rich diversity of Britain and the important values that help people with differing perspectives and outlooks to live together harmoniously. Chilton Foliat Primary School will develop our pupils' ability to live in a pluralistic (diverse) society by focusing on: democracy; the rule of law; individual liberty; mutual respect for and tolerance of those with different faiths and beliefs and for those without faith.

The executive committee pupils are given the opportunity to visit the Houses of Parliament and will disseminate their newly found knowledge to the rest of the school. We will also make visiting a place of worship (other than a Christian Church) a priority. **Chilton Foliat Primary School has a new key strategic Equality Objective to increase understanding of religious/faith diversity (including people who do not have a faith) and to develop an awareness of the history of religious intolerance in Britain and Europe and to learn to promote tolerance and understanding.**

Sexual Orientation/Different Families

This is one of the fastest changing areas of society, and one that is being addressed by Chilton Foliat Primary School. Different families may include:

- families with adopted children (including those headed by same-sex couples)
- families with foster children (including those headed by same-sex couples)
- families headed by grandparents/uncles and aunts
- single-parent families
- children with more than one home
- step or blended families
- families with two mums/dads

Same-sex couples are legally able to adopt children, and that puts additional responsibility on school to make sure that *all* families providing love and care for children feel welcome as part of the school community. Same-sex couples are being welcomed as foster carers and adopters for Wiltshire Looked-After children and the numbers of families headed by same-sex couples will continue to rise.

Chilton Foliat Primary School works with pupils to address any use of discriminatory and bullying language that would create an unequal school environment. Chilton Foliat Primary School confidently tackles homophobic language (and other discriminatory language) and supports pupils to create a school environment that values diversity.

Gender Identity

Chilton Foliat Primary School is aware of the support that we can access in relation to this equality issue, including that from the Local Authority, and from *Mermaids* (this charity supports families and schools where gender identity has been recognised as a specific issue). Chilton Foliat Primary School is able, with the help of the Local Authority if required, to appropriately support pupils and their parents/carers should the need arise.

<http://www.mermaidsuk.org.uk/>

In addition, this school is aware of the changes we can make to avoid unnecessary gender distinctions. Such changes introduced by the school not only ensure a more equal environment should there be pupils who are uncertain about their gender identity, but can also contribute to providing a clearer perspective with regard to reviewing our data on attainment gaps between girls and boys.

This school has flexibility within the school uniform, does not make any distinction between the sports that girls and boys can play, and endeavours not to divide pupils into groups solely based on their sex.

EQUALITY OBJECTIVES

Schools are required to update their published Equality Information each year, and in addition, must have **at least one Equality Objective** that the school can focus and work on for a period of up to four years. *(Throughout this document these appear highlighted in blue.)*

Details of how we are implementing the key strategic and all equality objectives are further detailed in the School Development plan.
