Sacrifice to Support

Helping the children of Ukraine

What does the word sacrifice mean?

- Sacrifice means giving something up which is valuable
- What is valuable to you?
- What do you think the children of Ukraine have had to give up whilst a war is taking place in their country?
- Their homes
- Their friends
- Their school
- Their favourite toys, clothes or activities.

How can we help the children of Ukraine who are having to give up so much?

- **School Council** have come up with a plan for the Easter holidays to raise money for the children of Ukraine
- **School Council** are asking you to **give something up which is valuable** in exchange for a donation of a small amount of money
- Here are a few ideas.

How can we help the children of Ukraine who are having to give up so much?

- You could give up an extra Easter Egg and ask for a donation instead
- You could give up your time and do some jobs around the house and ask for a donation in exchange
- You could carry out an act of kindness in exchange for a donation

How can we help the children of Ukraine who are having to give up so much?

- After the Easter holidays, you are invited to bring in the donations you have collected by giving something up and they will be collected by School Council.

- If we all **sacrificed just one thing in exchange for a small amount of money** from a family member or close family friend, we can **all make a difference**
- **Thank you from the School Council.**
